PHOTOVOLTAIC CABLES

Our products

COOPER CABLE

1,8 kV CC - 0,6/1 kV CA

CONDUCTOR

Made of tinned copper wires, soft temper.

Stranding: Class 5, according to NM 280

INSULATION

Cross-linked compound free of halogens, flame retardant, with low smoke emission and UV resistant

COVERING

Thermoset compound free of halogens, flame retardant, with low smoke emission and UV resistant

SIZES

4, 6, 10mm²

REICON solar cables in compliance:

Differentiators REICON

- ✓ Market **Leader**
- ✓ **International** Presence
- ✓ National and International **Certifications**
- ✓ **Largest Production Capacity** in Latin America: 18,000 km/month
- ✓ **Highly Specialized** Sales Team
- ✓ **REINOVA**: Sustainable Reel **Recycling Process**
- ✓ **ISO 9001 Certified Company** - Quality Management System
